Case History

In 2025, a class action lawsuit was filed alleging that Apple Inc. (hereafter, "Apple") misrepresented the existence, development, and marketing of certain Siri Apple Intelligence features on Eligible Devices in violation of various state consumer protection laws. At this time, the class entered into a settlement with Apple for $250 million (this settlement is pending final approval). The settlement funds (less any expenses and fees) will be distributed if and when the Court grants final approval of the settlement and a claims process is completed.

Class Counsel or the Settlement Administrator may be contacted for additional settlement information.

Please understand that you have the right to file on your own.
